

AT CALIFORNIA PACIFIC MEDICAL CENTER, we believe in the power of medicine. We research the most up-to-date treatments, hire and work with the most qualified individuals, and practice the most modern, innovative medicine available. But we also believe that medicine alone is only part of the solution. That's why we look intently at each individual case and treat the whole person, not just the illness. Because medicine can transform a body. But going beyond medicine can transform a life.

California Pacific is committed to offering cancer patients a wide variety of helpful and compassionate care options. Our programs provide patients with treatment options and education, relaxation therapy, tools for daily living, support groups, complementary care, and more. Our goal is to help people living with cancer, live longer and healthier.

Breast Health Center 415-600-6474

The Breast Health Center provides a full range of breast diagnostic and support services in one convenient location. These services include digital screening and diagnostic mammography, breast ultrasound, image guided biopsy procedures, breast health education and the Breast Cancer Recovery Program.

Cancer Genetic Risk Assessment Program 415-600-5961

The Program provides counseling and genetic testing for people at risk for hereditary cancers. Our expert genetic medicine team includes physicians and genetic counselors who can help guide you to make the best decisions for your and your family members' health care.

Medical Oncology 415-600-6000

Chemotherapy and infusion services offer a wide range of specialized treatment options. Includes infusion for IV services including fluids, medications, transfusions, chemotherapy, iron, gamma globulin, antibiotics, antivirals, and phlebotomy.

Pediatric Hematology/Oncology 415-600-0770

Working closely with each family, oncology specialists provide multidisciplinary diagnosis, therapy and long-term care for children who have malignancies and hematologic disorders. Our focus is on providing families with top-notch care through all phases of treatment.

Radiation Oncology 415-600-3600

Radiation Oncology is often the first line of attack in eradicating tumor cells. We offer the state-of-the-art treatment modalities to treat most malignancies. Radiation oncology services include both conventional and leading-edge approaches to cancer treatment and care.

- BRACHYTHERAPY – Guided placement of radioactive seeds directly into the prostate gland allows a higher, directed radiation dose to be delivered, essentially treating the tumor from the inside out.
- STEREOTACTIC RADIOSURGERY & RADIOTHERAPY – Delivery of precise finely collimated beams of radiation can effectively treat or eliminate brain and spine tumors without surgery.

(OVER, PLEASE)

- **3D CONFORMAL RADIATION THERAPY** – Using advanced imaging technology radiation treatment to shape the spatial distribution of the prescribed radiation dose to match the shape of the tumor, thereby minimizing radiation to surrounding healthy tissue.
- **PARTIAL BREAST RADIATION TREATMENT** – This post-lumpectomy breast conservation radiation technique usually requires fewer treatment sessions than with conventional radiation therapy.
- **ROBOTIC PROSTATECTOMY** – Using the da Vinci® robotic system to perform minimally invasive radical prostatectomies may reduce the risks for incontinence and erectile dysfunction.

SPECIALIZED CANCER PROGRAMS

African American Breast Health Program 415-600-2720

Nearly 10% of newly diagnosed breast cancer cases each year will affect African American women. Many are diagnosed at a later stage when tumors are larger and have spread. The primary goal of this program is to ensure these women are seen earlier for mammography and to raise awareness through community outreach and education.

Breast Cancer Recovery Program 415-600-2717

This program assists women and their loved ones through the process of diagnosis, treatment, and recovery of breast cancer. Responding rapidly to the medical and emotional needs of the patient, the program provides education, support, practical assistance, and referrals to additional services.

Integrative Cancer Program 415-600-3503

A team of physicians and practitioners from the Health & Healing Clinic integrate conventional medical care with supportive holistic therapies for cancer patients. The team works with patients to reduce treatment-related side effects and toxicity, enhance immune function, and treat pain, fatigue, nausea, and poor appetite.

Gynecological Cancer Recovery Program 415-600-0500

The program provides compassionate physical, emotional, and spiritual healing care for women undergoing treatment for uterine, ovarian, cervical, vaginal, vulvar, and peritoneal cancers. It offers personalized education and support services.

Women and Cancer: A Healing Program 415-600-4325

Women living with cancer, currently undergoing or finished with treatment, have a safe place for healing and growth with this program. Assistance is offered to aid with stress reduction, nutrition, and exercises to create a healthy lifestyle.

THANK YOU FOR THE OPPORTUNITY TO SHARE INFORMATION ABOUT CALIFORNIA PACIFIC MEDICAL CENTER'S SERVICES WITH YOU. PLEASE ACCEPT OUR SINCERE WISHES FOR YOUR GOOD HEALTH.

California Pacific Medical Center. Beyond Medicine.

California Pacific Medical Center is one of the largest private, not-for-profit, academic medical centers in Northern California and is a Sutter Health affiliate. As a tertiary referral center, the Medical Center provides a wide variety of services, including acute, post-acute and outpatient hospital care; home care and hospice services; preventive and complementary care and health education.

Through our medical education program and our Research Institute, physicians are able to bring health care innovation to the bedside. We go beyond medical care and provide our patients with services like disease counseling, family support and wellness treatments. And we reach deep into our community to provide education, screening, and financial support in some of the city's most underserved areas.

Tell Us Your Story

We truly appreciate your time and input toward helping us go beyond medicine. We invite you to share your health care experience connected with California Pacific Medical Center at www.cpmc.org/beyondmedicine.
