

# Mission Statement for the Community Outreach Task Force

- CPMC has created a “Blue Ribbon” process to develop a viable plan for an acute care hospital and outpatient services at CPMC’s St. Luke’s campus, which complements and is supported by CPMC’s current institutional plan for its other campuses.
  
- The purpose of the Community Outreach Task Force is to objectively report the needs of the community to the Blue Ribbon Panel, and to enhance the dialogue between the community and CPMC. To this effect, the Task Force will coordinate and collate information obtained through community outreach and public discussion meetings. The Community Outreach Taskforce will develop a final consensus report on the needs of the community, as defined by the community. The report will be signed by each Task Force participant and presented to the Blue Ribbon Panel to inform their deliberations and recommendations.
